NUMBER 1 JANUARY–FEBRUARY 1992

Editorial 1

Fast reconstruction of 3D mechanical parts from 2D orthographic views with rules
Z. Chen, D.-B. Perng, C.-J. Chen and C.-S. Wu 2

A scheme for classifying integration types in CIM
S. K. Das 10

Implementation of a cell-based system for the manufacture of a range of louvre smoke ventilators
P. Prickett and J. Coleman 18

An automated hardwood log breakdown system for lumber manufacturing
L. G. Occeña 24

Optimal selection of orders in a just-in-time manufacturing environment: a loading model for a computer integrated manufacturing system
B. Pourbabai 38

Engineers' interaction with CAD/CAM and its implications for design and implementation of CIM
C. H. Azani and R. Khorramshahgol 45

Book reviews 49

Call for papers 51

NUMBER 2 MARCH–APRIL 1992

Special Issue: Human Factors in CIM
edited by David L. Morrison

Guest editorial 53

Effects of task uncertainty and continuous performance on knowledge execution in complex decision-making
R. P. Mahan 58

Classification of temporal errors in CIM systems: development of a framework for deriving human-centred information requirements
P. Prabhu, J. Sharit and C. Drury 68

Alarms in human supervisory control: a human factors perspective
N. A. Stanton, R. T. Booth and R. B. Stammers 81

An evaluation of command line and menu interfaces in a CAD environment
G. G. Roy 94

Comparison of command language and direct manipulation interfaces for CNC milling machines
O. F. Torres-Chazaro, R. J. Beaton and M. P. Deisenroth 107

Towards a conceptual framework for specifying manufacturing workgroups congruent with technological change
A. Majchrzak and L. Gasser 118

The human impact of technological change: a study of the attitudes and beliefs of employees of manufacturing companies
D. Levi, C. Slem and A. Young 132

Announcements 143

NUMBER 3 MAY–JUNE 1992

Real options analysis in advanced manufacturing technologies
L. J. O. Lint 145

Analysis of periodic and event-driven rescheduling policies in dynamic shops
L. K. Church and R. Uzsoy 153

Computer-aided selection of automatic identification systems
J. Trevino and C. Kilgroe 164

Learning real-time scheduling rules from optimal policy of semi-Markov decision processes
Y. Yih 171

Reusable software concepts applied to the development of FMS control software
J. S. Smith and S. B. Joshi 182

Announcements 197

NUMBERS 4 & 5 JULY–OCTOBER 1992

Special Issue: CIM in the Four Dragons
edited by Byoung K. Choi

Guest editorial: CIM in the Four Dragons 199

CIM progress in a Korean heavy-industry company
S. Kim, H.-I. Kim, W.-I. Kang and H. Lee 201

The development of computer integrated manufacturing in Singapore
H. N. Choon 210

GINTIC Institute of CIM: A national centre for R&D in CIM
R. K. L. Gay 218

Computer integrated mould manufacturing
M. Kang, S. Park and Y.-S. Hong 229

CIMIDES—A computer integrated manufacturing information and data exchange system
B. S. Lim 240

Tool management for flexible manufacturing
B. W. M. Chan 255

A review and an implementation of contingency management in flexible manufacturing systems
Y. S. Wong, F. E. H. Tay, H. T. Loh and A. Y. C. Nee 266

A modular approach for the modelling of a class of zone-control conveyor system using timed Petri nets
J. T. Lin and C.-C. Lee 277

Study of AGVS design and dispatching rules by analytical and simulation methods
C.-M. Liu and S.-H. Duh 290

Mathematical model for robotic arc-welding off-line programming system
M. J. Tsai, S.-D. Lin and M.-C. Chen 300

A flexible robot inspection cell based on vision image
K.-C. Lee, H.-P. Huang and S.-S. Lu 310

An automated process planning system for prismatic parts
T. N. Wong and S. L. Siu 319

NUMBER 6 NOVEMBER–DECEMBER 1992

Automated development of design and control strategy for FMS
J. J. Talavage and R. Shodhan 335

A contribution for integrating the operational safety concept in CIM
E. Niel, J. Zaytoon, A. Mille and A. Jutard 349

Annealing method for PCB assembly scheduling on two sequential machines
D. Ben-Arieh and O. Maimon 361

Intelligent edging decision system for integrated hardwood flitch processing
L. G. Occeña and S.-H. Wang 368

Artificial intelligence in flexible manufacturing systems
P. K. Jain and C. T. Mosier 378

Book reviews 385

Index of authors (with titles) 387
